BIONEST

A TECHNOLOGY OF CHOICE

MAKING A DIFFERENCE

BIONEST INVESTS A GREAT DEAL OF TIME AND ENERGY TO REMAIN AT THE CUTTING EDGE OF TECHNOLOGY. WE MAKE THE DIFFERENCE BY DEVELOPING HIGH PERFORMANCE, YET SIMPLE AND DURABLE WATER PRESERVATION SOLUTIONS WHICH STAND OUT INTERNATIONALLY.

Sustainable Solutions

BIONEST® technology is at the heart of our various treatment options. The system replicates and optimizes water purification normally done naturally, whatever your site and soil type.

Our high efficiency treatment is carried out in compact sealed tanks where our patented media promotes growth of purifying microorganisms to remove pollutants harmful to your health and the environment.

PROVEN RELIABILITY... GUARANTEED RETURN!

- ✓ PATENTED TIME RESISTANT MEDIA¹
- ✓ MOST ADVANTAGEOUS TOTAL COSTS
- ✓ MAKE YOUR INVESTMENT GROW
- ✓ OPTIMIZE LOT AVAILABILITY
- ✓ WORRY-FREE

BIONEST... MORE 4 YOUR MONEY!

Create the perfect match

Our skilled professionals will provide unique and personalized guidance throughout your project:

- Current or multiphase
- Permanent or mobile
- Below or above ground
- Continuous or seasonal use
- Small, medium or large scale

Water Quality Our Priority

- Clear and odorless effluent
- Keeps groundwater safe
- Treated water can be 100% reused, reducing costs of buying water in many countries

Shared Environmental Vision

- Protects lives, flora and fauna
- Reduces footprint
- Optimizes water use
- Gives water a second life

Enhanced Experience

- Low installation, operation and maintenance costs
- Few mechanical components and simple hydraulic flow
- Efficient and reliable

You're in good hands!

- Peace of mind
- High quality materials
- Post-installation follow-up
- Service by a qualified team
- Outstanding warranty

¹ When used according to manufacturer recommendations.

COMMERCIAL & INSTITUTIONAL
 Increase your company value

Choose a treatment system which provides flexibility and peace of mind; you can thus pursue your daily activities stress-free. Over time, your system will easily adapt to your growing company's needs. Select amongst solution of choice and increase your company's profitability.

MUNICIPAL & COMMUNITY
 A logical choice for communities

Whether for a residential development, a condominium building project or a resort complex, BIONEST® technology helps simplify wastewater management while providing a superior treatment quality. Our solutions offer unparalleled technical and economic advantages for the user, developer and/or municipality. Finally, an economical alternative to connecting to the municipal network!

MOBILE
 The flexible and profitable solution

Bionest has developed relocatable units using the BIONEST® technology inside plant assembled containers. Available in 2 versions, BIONEST-KODIAK™ units are suitable for northern regions, while BIONEST OASIS® units are adapted for moderate climate conditions. Truly the best solution for turning your operation expenditures into a profitable investment!

APPLICATIONS

- MINING
- RESIDENTIAL DEVELOPMENTS
- HOTELS AND MOTELS
- CAMPGROUNDS
- RESTAURANTS
- SCHOOLS
- OFFICES
- GOLF COURSES
- WORK CAMPS
- MILITARY CAMPS
- INCOME PROPERTIES
- OTHERS

INNOVATION...
our PASSION!

RECOGNIZED WORLDWIDE

Bionest stands out by surpassing the most stringent purifying standards!

CERTIFICATION EXAMPLES
